POND SHAKTI™

**Pond Mineral
Cum Plankton Booster**

SCIENCE TO SUCCESS

POND SHAKTI™

SCIENCE TO SUCCESS

Benefits :

- Balance the ration of essential minerals in pond water
- Regularise the osmoregulation process
- Maximize production and optimise food conversion ratio (FCR)
- Helps to grow planktons and useful microelements for fish and shrimps
- Regulates pH of pond water
- Develops immunity to fight against the harmful pathogen of shrimps and fishes
- Helps for better digestibility and regulates the blood pH for higher enzymatic activity

Composition :

Essential micronutrients in a specialised form for sustainable aquaculture with a complex mixture of sodium, potassium, calcium, magnesium, phosphorus, pH regulators, growth promoters and essential amino acids.

Dosage :

For pond preparation : 10 Kgs / Acre
During culture : 6- 8 Kgs / Acre
10 G / Kg feed for prevention in fish farming
15 G / Kg feed for treatment in fish farming

Storage and caution :

- Keep in cool and dark place
- Aquaculture Use Only
- Not for Medicinal Use
- Not for Human Use

Any ABB used, please specify in bottom of the label and mention copy of the label is purchase reference
