SCIENCE TO SUCCESS

TOXI GUARD®

SCIENCE TO SUCCESS

Benefits :

- Clears pond bottom
- Equally effect in wide range of environmental parameters
- Purifies pond water and deodorises toxic gases like NH_3 and H_2S
- Helps to grow planktons and useful microelements for fish and shrimps
- Increases dissolved oxygen (DO) capacity of pond water
- Balances the essential oxidized minerals for sustainable growth of shrimps and fishes.
- Economically viable in regular use

Composition :

Essential deodorising material and oxidizing agents with natural origin

Dosage :

For pond preparation : 15 Kgs / Acre
During culture : 8 - 10 Kgs / Acre

Storage and caution :

Keep in cool and Dry place

- Aquaculture Use Only
- Not for Medicinal Use
- Not for Human Use

Any ABB use, please specify in bottom of the label and mention copy of the label is purchased online
